

Methodist Boerne Emergency Center

FASTFACTS

24/7 Emergency Services In Your Neighborhood

Methodist Healthcare is proud to further its commitment to Boerne residents by announcing the design and development of the first-ever 24/7 freestanding Emergency Center in South and Central Texas.

The new 9-1-1 emergency facility will be just like having a Methodist hospital ER in Boerne, offering a higher level of emergency care right in the neighborhood and offering the depth of resources of an acute care hospital for long-term illness or serious injury.

Hospital Highlights

Facility

- Freestanding; full-service; 24/7, 365 day emergency center
- 20,560 square foot, single floor facility to be constructed alongside Methodist Boerne Medical Center
- 15 treatment rooms:
 - » Two trauma/cardiac care rooms
 - » Five emergency/treatment rooms
 - » Four Fast-track non-urgent treatment rooms for minor emergencies
 - » Four observation beds designed for monitoring 23-hour observation stay
- Full range of services will be available including: radiology, full-service laboratory and telemetry
- Specific on-site diagnostic equipment will include: 16-slice CT scanner; dedicated x-ray suite, ultrasound and telemetry equipment
- The new ER will offer the benefits of immediate intervention for serious emergencies where treatment time is critical and 23-hour monitoring and testing of patients, such as chest pain cases
- Use of a Picture Archiving Communications System (PACS) will allow staff to electronically transmit any diagnostic image from the Methodist Boerne ER to any Methodist hospital emergency room for seamless follow-up
